## ABOUT

Christina Gravert is a Tenure-Track Assistant Professor of Economics at the University of Copenhagen, Denmark. Her research interests include Behavior Change, Nudging and Optimal Policy Design. She conducts research in collaboration with public and private institutions in the fields of health behaviour and environmental sustainability. Her focus is on innovating public policy by incorporating insights from behavioral economics and establishing the use of randomized controlled trials for evidence-based decision making. Christina is also the co-founder of Impactually, one of Sweden's first behavioral insights consultancies.
